#### 4.1 First Aid: INGESTION: If ingested, do not induce vomiting! If product has been swallowed, drink plenty of water or milk IMMEDIATELY. If the patient is vomiting, continue to offer water or milk. Never give water or milk to an unconscious person. Contact the nearest Poison Control Center or local emergency number. Provide an estimate of the time at which the material was ingested and the amount of the substance that was swallowed. SKIN & EYES: If product gets in the eyes, flush with copious amounts of lukewarm water for at least 15 minutes. Open and close eyelid(s) to ensure thorough irrigation. Seek immediate medical attention. If problem persists, seek immediate medical attention. If irritation occurs & product is on the skin, rinse thoroughly with lukewarm water followed by a thorough washing of the affected area with plenty of soak and waster. Remove all contaminated clothing including footwear and wash thoroughly before reuse. If irritation, redness or swelling persists, consult a physician immediately. INHALATION: Remove victim to fresh air at once. If breathing stops, perform artificial respiration. Seek immediate medical attention. 4.2 Medical Conditions Aggravated by Exposure: HEALTH 1 Pre-existing dermatitis, other skin conditions and disorders of the target organs (eyes, skin) FLAMMABILITY 0 PHYSICAL HAZARDS 0 **PROTECTIVE EQUIPMENT** В EYES SKIN

	5. FIREFIGHTING MEASURES	3 of 7		
5.1	Flashpoint & Method: > 100 °C (> 212 °F)			
5.2	Autoignition Temperature: NA			
5.3	Flammability Limits: Lower Explosive Limit (LEL): NA Upper Explosive Limit (UEL): NA			
	Fire & Explosion Hazards: This product is slightly flammable. When involved in a fire, this product may ignite and decompose to form toxic gases (e.g., CO, CO2 and Nox)			
5.5	5 Extinguishing Methods: Water, Foam, CO2, Dry Chemical			
	Fire Fighting Procedures: First responders should wear eye protection. Structural fire fighters must wear full protective equipment and MSHA/NIOSH approved, self-contained breathing apparatus. If possible, prevent runoff water from entering storm drains, bodies of water or other enviormentally sensitive reas. If necessary, rinse contaminated equipment with soapy water before returnign to service.			

## 6. ACCIDENTAL RELEASE MEASURES

6.1 Spills:

Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment. For small spills (e.g., , 1 gallon [3.785 liters]) wear appropriate personal protective equipment (e.g., goggles & gloves). Maximize ventilation (open doors and windows). Expose spilled material to UV light source for 2-5 minutes. Lift cured material from substrate and repeat until very little residue remains. Remove remaining spilled material with absorbent material and place into appropriate closed container(s). Dispose of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with warm, soapy water. Remove any contaminated clothing and wash before reuse. For large spills (e.g., > 1 gallon [3.785 liters]) deny entery to all unprotected individuals. Dike and contain spill with inert material (e.g., sand or earth). Expose spilled material to UV light source for 2-5 minutes. Lift cured material to UV light source for 2-5 minutes. Lift cured material from substrate and repeat until very little residue remains. Remove remaining spilled material (e.g., sand or earth). Expose spilled material to UV light source for 2-5 minutes. Lift cured material from substrate and repeat until very little residue remains. Remove remaining spilled material with absorbent material and place into appropriate closed container(s). Dispose of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with warm, soapy water. Remove any contaminated clothing and wash before reuse. Remove any contaminated clothing and she before reuse. Keep spills and place into appropriate closed container(s). Dispose of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with warm, soapy water. Remove any contaminated clothing and wash before reuse. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water.

# 7. HANDLING AND STORAGE INFORMATION

7.1 Work & Hygiene Practices:

Avoid prolonged contact with this material. Avoid breathing the vapors generated by this product. Use in a well ventilated location (e.g., local exhaust ventilation, fans). Wash exposed skin thoroughly with plenty of soap and water after using this product. If necessary, use a moisturizer after washing. Do not eat, drink or smoke while handling this product.

7.2 Storage & Handling:

Use and store in a cool, dry, well ventilated location. Keep away from excessive heat. Keep away from incompatible materials listed in Section 10. Do not store in damaged or unmarked containers or storage devises. Keep containers securely closed when not in use. Open slowly on a level, stable surface. Empty containers may contain residual amounts of this product; therefore, empty containers should be handled with care. As a precaution against exposure to the eyes, nose, throat and face, this product should not be stored higher than waist level. KEEP AWAY FROM CHILDREN AT ALL TIMES!

7.3 Special Precautions: Do not store where temperatures can exceed 50 °C (122 °F).

	8. E>	(POSURE CONTROLS & PERSONAL PROTECTION	4 of 7
8.1	Ventilation & Engineering Controls:	Use with adequate ventilation (e.g., local exhaust ventilation, fans). Ensure appropriate	
		decontaimination equipment is available (e.g., sink, safety shower, eye wash station).	
8.2	Respiratory Protection:	No special respiratory protections is required under typical circumstances of use or	
		handling. In instances where vapors or sprays of this product are generated, and	
		respiratory protection is needed, use only protection authorized by 29 CFR § 1910.134,	
		application U.S. State regulations or the Candaian CAS Standard Z94.4-93 and applicable	
		standards of Canadian Provinces, EC Member States or Australia.	
8.3	Eye Protection:	Wear protective eyewear (e.g., safety glasses with side shields) at all times when	
		handling this product. Always use protective eyewear when cleaning spills or leaks.	
		Contact lenses pose a special hazard; soft lenses may absorb and concentrate irritants.	
8.4	Hand Protection:	None required under normal conditions of use. However, may cause skin irritation in	ama
		some sensitive individuals. When handling large quantities (e.g., >1 gallon [3.785	
		liters]), wear nitrile or imprevious gloves.	
8.5	Body Protection:	No apron required when handling small quantities. When handling large quantities	
		(e.g., . 1 gallon), eye wash stations and deluge showers should be available. Upon	
		completion of work activities involving large quantities of this product, wash any	
		exposed areas thoroughly with soap and water.	

	9. PHYSICAL & CHEMICAL PROPERTIES				
9.1	Density:	1.1			
9.2	Boiling Point:	NA			
9.3	Melting Point:	ND			
9.4	Evaporation Rate:	NA			
9.5	Vapor Pressure:	ND			
9.6	Molecular Weight:	NE			
9.7	Appearance & Color:	Clear or pigmented liquid			
9.8	Odor Threashold:	NE			
9.9	Solubility:	Not soluble			
9.1	pH:	NA			
9.11	Viscosity:	approximately 65,000 cps			
9.12	Other Information:	NA			

# **10. STABILITY & REACTIVITY**

<u> </u>	
10.1	Stability:
	Relatively stable under ambient conditions when stored properly.
10.2	Hazardous Decomposition Products:
	If exposed to extremely high temperatures, products of thermal decomposition may include irritating vapors and toxic gases (e.g., oxides of
	carbon and nitrogen).
10.3	Hazardous Polymerization:
	Will not occur.
10.4	Conditions to Avoid:
	Exposure or contact to extreme temperatures, incompatable chemicals, strong light sources, sparks and flame.
10.5	Incompatable Substances:
	Strong oxidizers, peroxides, strong acids or alkalis.

	11. TOXICOLOGICAL INFORMATION 5 of 7
11.1 Toxicity I	
This proc	duct has NOT been tested on animals to obtain toxicology data. There are toxicology data for the components of the produ t which
	d in scientific literature. These data have not been presented in this document.
11.2 Acute To	xicity:
See Sect	•
11.3 Chronic	Toxicity:
See Sect	·
11.4 Suspecte	
	edients of this product are not listed as carcinogens by the National Toxicology Program and have not been evaluated by the
	Agency for Research on Cancer or the American Conference of Government Industrial Hygenists.
11.5 Reprodu	
	duct is not reported to cause reproductive toxicity in humans.
Mutagen	
-	duct is not reported to produce mutagenic effects in humans.
Embryot	
	duct is not reported to produce embryotoxic effects in humans.
Teratoge	
-	ducts is not reported to cause teratogenic effects in humans.
11.6 Irritancy	
See Secti	
	Il Exposure Indicies:
NE	
	n Recommendations:
	otomatically
	12. ECOLOGICAL INFORMATION
12.1 Environn	nental Stability:
	duct will slowly volatile from soil. Components of this product will slowly decompose into organic compounds.
12.2 Effects o	n Plants & Animals:
There is	no specific data availble for this product on plant life.
12.3 Effects o	n Aquatic Life:
There is	no specific data availble for this product on aquatic life.
	13. DISPOSAL CONSIDERATIONS
13.1 Waste Di	
	inaccordance with local, state and Federal waste laws.
	ionsiderations:
	erial becomes an inert plastic upon prolonged exposure to sources of UV light and sunlight. Disposal of inert plastics is safer for the
	nent and is more easily handled for disposal according to local, state and Federal regulations.
	14. TRANSPORTATION INFORMATION
	ription (ID Number, proper shipping name, hazard class & division, packing group) is shown for each mode of transportation. criptive information may be required by 49 CFR, IATA/ICAO, IMDG, SCT, ADR and the CTDGR.
14.1 49 CFR (0

## **DEFINITION OF TERMS**

A large number of abbreviations and acronyms appear on a SDS. Some of these that are commonly used include the following: GENERAL INFORMATION:

## CAS No. Chemical Abstract Service Number

#### EXPOSURE LIMITS IN AIR:

ACGIH American Conference on Governmental Industrial Hygienists	
TLV	Threshold Limit Value
OSHA	U.S. Occupational Safety and Health Administration
PEL	Permissible Exposure Limit
IDLH	Immediately Dangerous to Life and Health

#### FIRST AID MEASURES:

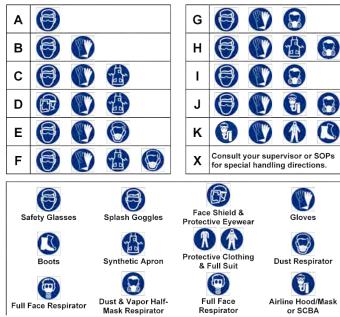

Cardiopulmonary resuscitation - method in which a person whose heart has
stopped receives manual chest compressions and breathing to circulate blood and provide oxygen to the body.
and provide oxygen to the body.

#### HAZARDOUS MATERIALS IDENTIFICATION SYSTEM: HMIS

#### HEALTH, FLAMMABILITY & REACTIVITY RATINGS:

0	Minimal Hazard	HEALTH
1	Slight Hazard	FLAMMABILITY
2	Moderate Hazard	PHYSICAL HAZARDS
3	Severe Hazard	PERSONAL PROTECTION
4	Extreme Hazard	

### PERSONAL PROTECTION RATINGS:

#### OTHER STANDARD ABBREVIATIONS:

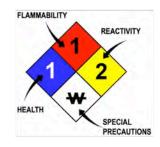

NA	Not Available
NR	No Results
NE	Not Established
ND	Not Determined
ML	Maximum Limit
SCBA	Self-Contained Breathing Apparatus

#### NATIONAL FIRE PROTECTION ASSOCIATION: NFPA

FLAMMABILI	TY LIMITS IN AIR:			
Autoignition Temperature	Minimum temperature required to initiate combustion in air with no other source of ignition			
LEL Lower Explosive Limit - lowest percent of vapor in air, by volume, that very explode or ignite in the presence of an ignition source				
UEL	Upper Explosive Limit - highest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source			

#### HAZARD RATINGS:

0	Minimal Hazard
1	Slight Hazard
2	Moderate Hazard
3	Severe Hazard
4	Extreme Hazard
ACD	Acidic
ALK	Alkaline
COR	Corrosive
w	Use No Water
ох	Oxidizer
TREFOIL	Radioactive

#### TOXICOLOGICAL INFORMATION:

LD <sub>50</sub>	Lethal Dose (solids & liquids) which kills 50% of the exposed animals				
	S				
LC <sub>50</sub>	Lethal concentration (gases) which kills 50% of the exposed animal				
ppm	Concentration expressed in parts of material per million parts				
TD <sub>to</sub>	Lowest dose to cause a symptom				
TCLo	Lowest concentration to cause a symptom				
TD <sub>Io</sub> , LD <sub>Io</sub> , & LD <sub>o</sub> or	Lowest dose (or concentration) to cause lethal or toxic effects				
TC, TC <sub>o</sub> , LC <sub>lo</sub> , & LC <sub>o</sub>					
IARC	International Agency for Research on Cancer				
NTP	National Toxicology Program				
RTECS	Registry of Toxic Effects of Chemical Substances				
BCF	Bioconcentration Factor				
TLm	Median threshold limit				
log K <sub>ow</sub> or log K <sub>oc</sub>	Coefficient of Oil/Water Distribution				

#### **REGULATORY INFORMATION:**
